## Hotronix® Fusion

*Do the same job in about half the time.*

Threadability™ gives you the power to quickly and easily position garments on the lower platen, significantly increasing production speed. Simply position, press, then rotate to decorate any area on the garment—front, back or sides—without removing from the platen. Save steps, save time. Fusion is the only heat press in the industry with patented dual function capability—which means you choose to make it a swing or draw press. Whatever your style, user-friendly Touch Screen Technology lets you program an unlimited number of application settings, count production cycles and turn on and off automatically—in English, Spanish or your choice of six other languages.

### Features:

- Digital time, temperature, and pressure display
- 16" x 20" platen opens with swing or draw motion that fits the way YOU work!
- Special cast aluminum alloy frame
- Dual timer makes two-step applications a breeze

Hotronix® Fusion 16" x 20" **1,850.00**

One or more patent and/or patents pending.

The World's Only Swinger/Draw Design

Exclusive Touch-Screen Technology

### Smarter. Better. Here's Why:

- Made in the USA
- Automatic timer
- Quick change lower platen
- Cast-in tubular heating element every 2" (5cm), eliminating cold spots
- 3/4" (2cm) thick, coated upper platen
- 3/8" (1cm) Silicone rubber bottom pad
- Push button controls
- Heavy duty design
- Scratch-resistant, baked-on powder coat finish
- Coated heater – stress relieved to prevent warping
- Optional platens available
- Platinum RTD heat sensor
- F° or C° available
- Temperature range 200°F – 400°F
- Available in 110V or 220V
- UL / ULC / CE / RoHS approved
- Premium warranty

## Stahls' Hotronix® Premier Warranty:

- Lifetime heating element warranty
- 5 year warranty on framework
- 2 years on circuit board
- 1 year parts and labor
- Free lifetime technical support

## Exclusive 365/24/7 Support Program

"Stahls' Hotronix® is proud to introduce the Blue Ribbon Support program. In addition to our already outstanding customer service, we now offer extended support hours. You'll be able to speak with a live person 24 hours a day, seven days a week, 365 days a year!"

120v: 15 Amps / 1800 Watts  
220v: 10 Amps / 2250 Watts  
48" x 40" x 58" • 245 lbs. ship weight

\*Requires air compressor (not included) with minimum 1/2 horse power and 2 gallon hold tank. Uses 2.3 CFM.

## Hotronix® Air Fusion™

*Smarter, Air-Powered Technology. Faster Production.*

Threadability™ plus hands-free heat printing and Auto Adjust Pressure™. It doesn't get any easier to heat print than this. Adding the power of air operation for hands-free auto swing, Air Fusion is everything you've ever wanted in a heat press. The ONLY press with Auto Adjust Pressure™, whether you're printing a sweatshirt or a thin t-shirt, the pressure automatically adjusts to the thickness of the item you're printing. 50% more pressure (120 PSI) than any other heat press on the market. Air Fusion innovation is making garment decorating easier than ever. Your production will be reduced and your profits will increase.

### Features:

- Auto Open, Swing Away Design
- Exclusive Touch Screen Controller with New Multi-swipe gestures.
- Auto Adjust Pressure™ - Store preset programs of your frequently used applications and your machine automatically adjusts the pressure to the thickness of the item you are printing.
- Optional Quick Change Platens
- Push Button Control for operating upper platen
- The industry's only adjustable height stand
- Data interface port for software upgrades.
- Digital time, temperature, and pressure display
- Die pressure cast 356 aluminum corrosion-free framework.

Hotronix® Air Fusion™ 16" x 20" **3,800.00**

## Hotronix® Auto Open Clam

*The gold standard for multi-taskers.*

The patented magnetic auto-open feature means you can turn away from the press to prep the next garment without worrying! No more ruined garments. Print perfection is yours with Over-the-Center Pressure Adjustment for even - edge to edge - heat and pressure and a Twin Timer™ for two-step applications or preheating.

### Features:

- Patented, magnetic auto open feature
- Patented, magnetic assist lock down
- Digital time, temperature, and pressure display
- Space saving clam shell design
- Wide opening for easy layout
- Patented, over-center-pressure adjustment

Hotronix® Auto Clam 11" x 15" **850.00**  
Hotronix® Auto Clam 16" x 16" **1,200.00**  
Hotronix® Auto Clam 16" x 20" **1,450.00**

One or more patent and/or patents pending.

## Hotronix® Auto Open Cap

*Avoid over-application—automatically.*

This cap press automatically opens when the press cycle is complete, putting an end to over application and ruined caps. Four easily changeable lower platens allow a snug fit for virtually any size cap.

4 Amps / 500 Watts  
26" L x 15" W x 20" H • 41 lb. ship weight

### Features:

- Patented, magnetic auto open feature
- Patented, magnetic assist lock down
- Digital time, temperature, and pressure display
- Under center pressure adjustment
- Generates maximum pressure with less effort
- Space saving clam shell design

Hotronix® Auto Cap **750.00**

## Hotronix® Auto Open 6" x 6"

*Because Good Things Come in Small Packages Too*

If you're heat printing can koozies or small areas of apparel such as labels on shirt collars or logos on sleeve cuffs, here's the perfect press. Lightweight and portable, it's ideal for mobile heat printing opportunities at craft shows and festivals.

3 Amps / 360 Watts  
26" L x 15" W x 20" H • 41 lb. ship weight

### Features:

- Patented, magnetic auto open feature
- Patented, magnetic assist lock down
- Digital time, temperature, and pressure display
- Generates maximum pressure with less effort
- Space saving clam shell design
- Wide opening for easy layout

Hotronix® Auto Clam 6" x 6" **750.00**

## Hotronix® Heat Press Caddie

*Make your clam press threadable and do the job in half the time.*

Portable. Adjustable. Affordable. Introducing the pedestal stand that converts any Hotronix® Auto Open or Maxx™ Clam into a threadable heat press. Threadability™, a Hotronix® exclusive, allows you to load your garment onto the press and decorate the front, back or side without removing it from the platen. What a time saver! The self-leveling casters allow true portability. Move it around your shop or go mobile and offer heat printing services at local events. There's no need to bend or reach to operate the Heat Press Caddie, either. The patented adjustable stand can be raised or lowered to enhance your comfort.

Hotronix® Heat Press Caddie **299.00**

One or more patent and/or patents pending.

## What To Look For In A Heat Press:

- ✓ **Cast-In Tubular Cal-Rod Heating Element and Thick Platens for Even Heat**

All Hotronix® presses feature a cast-in, tubular cal-rod heating element spaced every 2" throughout the platen to ensure even heat and eliminate cold spots. Plus the thick 3/4" platens retain heat better and longer than thinner platens.

- ✓ **Digital Readouts for Time, Temperature and Pressure!**

Only Hotronix® presses offer the convenience of a digital time, temperature, and pressure display! No more guessing about the correct pressure setting.

- ✓ **"Over-the-Center" Pressure Adjustment to Ensure Even Pressure**

Hotronix® presses are engineered with a patented "over the center" pressure adjustment and a flotation heat platen to ensure even pressure and a "no-pinch" application regardless of the thickness of the substrate.

- ✓ **Interchangeable Platens**

You can print just about anything, in any location, on any item with the right size heat press platen. Hotronix® offers additional platen sizes for bags, sleeves, pant legs, and totes. Custom platens can be special ordered for your specific needs.

- ✓ **Auto Opening To Prevent Over Application and Increase Production\***

Hotronix® presses come equipped with a patented, magnetic assist lockdown and an automatic open feature to make your job easier than ever. Even if you apply just one transfer a day, you'll appreciate the convenience of an auto-open press.

- ✓ **Solid State Temperature Controller for Accurate Heat**

Hotronix® presses are equipped with a solid-state controller that maintains a consistent temperature and accurate heat for perfect garment application every time.

- ✓ **Wide Opening for Easy Garment Placement**

Hotronix® clam presses have a wide 65 degree opening, which is 10% wider than most other clam-style presses on the market. This allows for safer, easier positioning of the garment on the lower platen, and safe positioning of transfers and other graphics. Swing and draw motion presses are also available for heat and obstruction-free workspace.

- ✓ **Lifetime Heating Element Warranty and Engineered to Last**

Hotronix® presses feature both a lifetime heating element warranty and a five year warranty on major components. Each press features a corrosion-resistant, laser steel framework and a powder coated finish.

\*Auto open feature not available on the Hotronix Fusion
